INTERNSHIP EXPERIENCE

Software Developer Intern — Brainbean Technolabs — Anand, Gujarat

Dec 2025 – Present

- Built full-stack ERP & Logistics System (InvoZA) using Laravel 12, PHP 8.2, and Tailwind CSS — integrating 8+ business modules into a unified panel.
- Engineered Geofenced Authentication — GPS-based silent login within office perimeter; out-of-radius sessions trigger 6-digit Email OTP with 15-min lockout policy after 5 failed attempts.
- Built Fleet Logistics module with real-time GPS agent tracking, 5-state shipment lifecycle, and OTP-secured last-mile delivery confirmation.
- Implemented event-driven HR Leave & Attendance system with auto-sync, leave reversal, and weekend/holiday-aware balance calculation.
- Designed RBAC dashboard with granular role-permission matrix (Admin, HR, Manager, Delivery Agent).
- Added WooCommerce API sync for real-time omnichannel inventory management across ERP and storefront.

Frontend Developer Intern — Infinite Craze Games — Surat, Gujarat

Jun 2025 – Jul 2025

- Developed responsive and interactive web UI components for gaming web applications using HTML, CSS, JavaScript, and Tailwind CSS.
- Collaborated on real-world frontend tasks including layout design, micro-animations, and cross-browser compatibility.
- Translated Figma/design mockups into clean, production-ready code.

Frontend Developer Intern — Spark To Ideas

Oct 2025

- Developed frontend features for web applications using modern JavaScript and Tailwind CSS.
- Gained practical experience in component-based UI development and responsive design principles.

Frontend Developer Intern — Motion Cut

Jan 2025 – Feb 2025

- Contributed to frontend development projects and strengthened technical skills through hands-on real-world experience.

PROJECTS

InvoZA ERP — Enterprise Resource Planning System

Personal / Internship Project

Full-Stack Web Application · Laravel 12 · 2024–2025

- Architected modular ERP on Laravel 12 covering Sales, Inventory, HR, Logistics, Finance, and RBAC in a unified panel.
- Built zero-trust Geofenced Authentication: browser GPS → silent login or Email OTP fallback with automated lockout.
- Designed Customer Wallet, Credit Memo, and EMI Plan modules for flexible post-sale financial workflows.
- Implemented WooCommerce REST API sync to prevent overselling across ERP and e-commerce storefront.
- Generated dynamic PDF invoices, delivery receipts, and barcode/QR slips using DomPDF.

Stack: PHP 8.2 · Laravel 12 · MySQL · Tailwind CSS · Alpine.js · Vite 7 · Laravel Sanctum · WooCommerce API · DomPDF
